OTE 81-1043 1 1 MAY 1981

Deputy Director of Training and Education SURJECT: Violence Abroad Related to Training REFERENCE: DDA 81-0924 dtd 29 April 1981, Same Subject 1. In response to paragraph two of reference, the OTE position is that no appreciable savings in instructor time or training resources will accrue if the Coping with Violence Abroad Course (CWVAC) were made mandatory for all Agency employees going overseas. If we dropped the approximately three hours and 45 minutes of apparent duplication between the three Agency courses and the CWVAC, the savings will be minimal, certainly not enough savings in time to substantially reduce the length of any of the Agency courses. 2. The audience of the CWVAC is very broad and the course presentations are general, suitable to the broad audience. Obviously, you cannot teach someone how to spot surveillance in a one hour lecture, but the State course has a lecture "Surveillance Recognition: A Plan of Action for Employees" which purports to do that. Another example is the State lecture "Recognition of and Defense Against Letter and Parcel Bombs," clearly a subject that needs to be treated more than 45 minutes if the message is to get through to the audience. 3. We believe our training programs are designed for specific audiences and we admit to some duplication between our own courses and between our courses and CWVAC.
